RE: Letter of Recommendation

In our efforts to promote aging in place for our residents, we investigated the benefits of providing cut-out/walk-thru tubs. During the bid process we were referred to the Scott Botruff, Certified Aging in Place Specialist, of Amadeus Remodeling and Construction Inc.

Scott and his crew, Tim, John, Chris, and Kevin truly went far above, and beyond our expectations. They are professional and friendly, and worked so diligently, that the entire project was completed 2 days early. They kept dust and debris contained, and removed all evidence as promised.

All requested documentation was provided, including compliance with the Davis-Bacon Act.

The residents and staff are extremely happy with the results, and highly recommend Amadeus, for your remodeling and construction needs. Our next project is a total laundry room remodel, to provide better access for our disabled residents. We will definitely consult with Amadeus on all of our future projects, and don't forget to ask him about his turkey jerky.

If you would like to discuss this further, please don't hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Laura Bosworth".
